You know what the **Phantom Surfers**, **Mummies** and **The Makers** all have in common? None of them could ever touch the raw fury that is **WAU Y LOS AARRRGHS!!!**

Welcome to the wild and wooly world of this savage group of strapping, handsome young Spaniards... they were recently stolen by brute force from **Rev. Beat Man's Voodoo Rhythm** label, and **Slovenly Recordings** (sick fuckinest garage-punk label on Earth) is proud to present **WAU's** sopho-moronic long player "iii Viven!!!"

This new LP is busting at the seams with **Back From The Grave** worthy garage punk monsters, and they're all lead by a vocalist (he sure as sheep shit ain't a singer!) that out-psychoes the vocalist from **Los Saicos!** Wait til you hear their "96 Tears" on dexedrine dance floor filler "Copa, Raya, Paliza". Is Wau puking throughout this song? And let's not even pretend to ignore their tribute to the greatest and greasiest axe-wielder of all time in "Viva Link Wray!!!" Kids all over Europe have witnessed these borrachos live and are now referring to them as "The craziest band we ever have sawed!" Fueled equally by potent ingestibles and a sincere passion for the big, crude beat of 1966, **WAU Y LOS AARRRGHS!!!** are here to make sure that the party gets started and destroyed in no time flat, in true no-count style. - *Bazooka Joe*

*Album produced by Jorge Explosion (Dr. Explosion) and the LEGENDARY Mike Mariconda (Raunch Hands / Devil Dogs)
