

THE GAIN

"A B C D & E: 1992-1998" LP/CD

702-39

LP: \$5.00

CD: \$5.50

RELEASE DATE: SEPT 9, 2003

A-sides, B-sides, Comp tracks, Demos, and Extras! Twenty-three (23) tracks from the most underrated 90's power pop / mod-punk band. This release is not only a retrospective but actually contains a LOST ALBUM - 9 remastered tracks, 5 of which were previously unavailable to you unless you happened to be in THE GAIN. The "lost album" was recorded by BRADLEY COOK (Foo Fighters, Counting Crows) very early in the band's career (well before their album "Ready Steady Smash" was put to tape) but the songs never surfaced until now. After the first 9 songs, the remainder of the Compact Disc contains everything the band released on their now impossible-to-find 7" singles and obscure compilations.

• THE GAIN's drummer, Corky Pidgeon (center), was Freddy on the 80s sitcom, Silver Spoons. Really!

• The LP version is extra special - the entire CD is included for free, with the "lost album" being the tracks on the vinyl. First 500 LP copies also come with a poster and a sticker

• Radio promotion is being handled by AAM (Advanced Alternative Media) in New York City. Contact Tim Bornemann at (212)924-3005.
