The classic garage-punk album originally released only as a limited LP (Slovenly Records, 1998) is finally available on an enhanced CD! Here's what NOISES FROM THE GARAGE said:

"This is a garage punk necessity. This record captures the legendary stage performances where THE TROUBLE MAKERS play with the spirit of such 60s punk staples as THE SONICS and THE KINGSMEN, and the intense ferocity of such 90s peers of theirs as THE MUMMIES and the PHANTOM SURFERS. Not only do their covers of "Back from the Grave" and "Pebbles" numbers easily top the originals, but this record includes such scathingly snotty fan favorites as "You Make a Better Door" and "Please Don't Touch Me There" that make it evident THE TROUBLE MAKERS could teach those angst-ridden 60s teens a thing or two about rock'n'roll." - Allen Hough
